SORRY!

If you are the owner of this website, please contact your hosting provider: webmaster@newswatchlist.com

It is possible you have reached this page because:

The IP address has changed.
The IP address for this domain may have changed recently. Check your DNS settings to verify that the domain is set up correctly. It may take 8-24 hours for DNS changes to propagate. It may be possible to restore access to this site by [following these instructions](#) for clearing your dns cache.

There has been a server misconfiguration.
You must verify that your hosting provider has the correct IP address configured for your Apache settings and DNS records. A restart of Apache may be required for new settings to take

95 / 100 Speed

 Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- http://newswatchlist.com/img-sys/IP_changed.png (4 hours)
- http://newswatchlist.com/img-sys/powered_by_cpanel.svg (4 hours)
- http://newswatchlist.com/img-sys/server_misconfigured.png (4 hours)
- http://newswatchlist.com/img-sys/server_moved.png (4 hours)
- <http://newswatchlist.com/cdn-cgi/scripts/5c5dd728/cloudflare-static/email-decode.min.js> (2 days)

Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

[Minify HTML](#) for the following resources to reduce their size by 212B (11% reduction).

- Minifying <http://newswatchlist.com/cgi-sys/defaultwebpage.cgi> could save 212B (11% reduction) after compression.

Optimize images

Properly formatting and compressing images can save many bytes of data.

[Optimize the following images](#) to reduce their size by 1.1KiB (13% reduction).

- Compressing http://newswatchlist.com/img-sys/server_moved.png could save 407B (13% reduction).
- Compressing http://newswatchlist.com/img-sys/server_misconfigured.png could save 388B (13% reduction).
- Compressing http://newswatchlist.com/img-sys/IP_changed.png could save 357B (13% reduction).

7 Passed Rules

Avoid landing page redirects

Your page has no redirects. Learn more about [avoiding landing page redirects](#).

Mobile

Enable compression

You have compression enabled. Learn more about [enabling compression](#).

Reduce server response time

Your server responded quickly. Learn more about [server response time optimization](#).

Minify CSS

Your CSS is minified. Learn more about [minifying CSS](#).

Minify JavaScript

Your JavaScript content is minified. Learn more about [minifying JavaScript](#).

Eliminate render-blocking JavaScript and CSS in above-the-fold content

You have no render-blocking resources. Learn more about [removing render-blocking resources](#).

Prioritize visible content

You have the above-the-fold content properly prioritized. Learn more about [prioritizing visible content](#).

100 / 100 User Experience

 5 Passed Rules

Avoid plugins

Mobile

Your page does not appear to use plugins, which would prevent content from being usable on many platforms. Learn more about the importance of [avoiding plugins](#).

Configure the viewport

Your page specifies a viewport matching the device's size, which allows it to render properly on all devices. Learn more about [configuring viewports](#).

Size content to viewport

The contents of your page fit within the viewport. Learn more about [sizing content to the viewport](#).

Size tap targets appropriately

All of your page's links/buttons are large enough for a user to easily tap on a touchscreen. Learn more about [sizing tap targets appropriately](#).

Use legible font sizes

The text on your page is legible. Learn more about [using legible font sizes](#).
