Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 10 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Optimize CSS Delivery](#) of the following:

- http://seo-online.xyz/theme/default/css/theme.css
- https://fonts.googleapis.com/css?family=Source+Sans+Pro:200,300,400,600,200italic,300italic,400italic,600italic

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider *making these tap targets larger* to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target Sitevaluecheck.net and 1 others are close to other tap targets final.

- The tap target <a href="https://www.facebook.com/" class="ultm ultm-face...-color-to-gray"> is close to 1 other tap targets.
